Business Language & Financial Literacy curriculum

One of the main outputs of the "PLOUTOS" project was the creation of extensive Financial Literacy and Business Language Curricula that were created expressly for TCNs (Third-Country Nationals) and included elements of entrepreneurship and finance.

Business Language & Financial Literacy trainings

From September 2022 to July 2023, nearly 300 TCNs who lived in the European Union were equipped with the necessary skills to potentially integrate into the business community of their host country.

PLOUTOS technical tool

PLOUTOS is an app aimed at delivering support to enhance the financial literacy of Third Country Nationals (TCNs) in seven European Union countries. This platform comprises three distinct sections: the PLOUTOS Practice Business Virtual Environment (PBVE), The PLOUTOS Microfinance Platform (MP) and the library.

PLOUTOS Online Community Interpreter Training

The PLOUTOS Online Community Interpreter Training will start in October 2023. Participants will be trained to become Community Interpreter supporting third-country nationals in their inclusion process in the local communities and facilitating their journey to autonomy.

"Practice Business" Acceleration Programme

PLOUTOS project will introduce in the next months, the Business Acceleration Programme. A Practice Business is a trainee-run company that operates like a real business. It silhouettes a real enterprise's business procedures, products and services.

Funded by the Asylum, Migration and Integration Fund (AMIF) of the European Union

- Community Interpreter Training
- Start in October 2023
- Online course lead by Aristotle University of Thessaloniki

4

PLOUTOS TECHNICAL TOOL

- PLOUTOS Practice Business Virtual Environment (PBVE)
- PLOUTOS Microfinance Platform (MP)
- Library

ABOUT THE PROJECT

The PLOUTOS project aims to support third-country nationals (TCNs) in achieving prosperity and integration in their host countries by providing resources, training, and access to financial services. It addresses challenges such as limited financial access, low literacy, and workplace confidence, fostering a smooth integration process.

PLOUTOS will impact the local communities by increasing TCN's confidence and motivation for self-employment thanks to a new skillset as well as it will reduce the fear and instability that comes as a result of TCNs dependence on the surrounding society.
